PRACTICAL CLINICAL COURSES

PROCEDURE FOR RECEIVING
CE CREDIT FOR VIDEO COURSES

1. Complete the enclosed Post-Test.* For each **CE Video Purchased**, one test is included. If additional tests are needed, the following fees will apply: \$25 per test for 1 additional dentist; \$10 per test for each auxiliary (dental assistants, hygienists, lab technicians - no limit on auxiliary tests). Fees can be paid either by check or credit card when tests are submitted to Practical Clinical Courses.
2. Complete the demographic information located at the end of the test.
Type of Credit:
 - a. If the applicant selects "State," PCC will issue a certificate of verification to the applicant. The applicant must then submit this certificate to their state board to obtain credit.
 - b. If the applicant selects "AGD," PCC will submit credit information to the Academy of General Dentistry and confirmation to the applicant that it has been submitted (*the applicant may check their AGD transcript for verification – please allow 30 days*).
 - c. If the applicant selects "Both," PCC will complete a & b above.
3. Return the **Post-Test portion** via email, fax, or mail. Our contact information is as follows:

Practical Clinical Courses
3707 N Canyon Road
Suite 3D
Provo, UT 84604
Fax: (801) 226-8637
info@pccdental.com

4. Practical Clinical Courses will correct the Post-Test. **Passing scores are 70% or higher.**

***TO OBTAIN CE CREDIT ONLINE:** Login or create an account on www.pccdental.com and select "My CE Tests" from the left-side menu. Click on the video title to take the test online. **RESULTS ARE IMMEDIATE.** Missing the test? Contact us at 800-223-6569 during our business hours of 7:00 a.m. – 4:00 p.m. MST to add it to your account.

PROGRAM

S4749 Essential Risk Management

CLINICIANS RESPONSIBLE:

Mitchell J. Gardiner, DMD

*Clinical Assistant Professor, Rutgers School of Dental Medicine
Expert Witness for 25 Years, Dental Malpractice Cases
Fellowships in the AGD, ACD, and ICD*

Gordon J. Christensen, DDS, MSD, PhD

*Founder and CEO, Practical Clinical Courses
Senior Consultant & Previous CEO, CR Foundation
Practicing Prosthodontist, Provo, Utah*

GOALS & OBJECTIVES

At the completion of this video presentation, viewers should be able to:

1. Define standards of care in dentistry.
2. Discuss who establishes standards of care.
3. Discuss potential changes over time with standards of care.
4. Define what areas of dentistry are discussed to determine negligence.
5. Discuss the importance of recording proper documentation of procedures.
6. Discuss the frequency of dentists being involved with lawsuits.
7. List some types of permanent injuries that occur in dentistry.
8. List some types of temporary injuries that occur in dentistry.
9. Define what two conclusions need to be proven in court to indicate negligence.
10. Discuss the importance of recording all medications.
11. Discuss the importance of updating medical histories.
12. List the vital signs that must be determined and recorded.
13. Discuss virtual vs. hard copy informed consent.
14. Discuss the relationship of the human papillomavirus to dentistry.
15. List the procedures involved with proper informed consent.
16. Describe who signs the informed consent document.
17. Discuss dentists' responsibility for diagnosing oral cancer.
18. Determine what risk management procedures should be incorporated into your practice.
19. Evaluate the risk management procedures currently used in your practice.
20. Incorporate proper risk management procedures into your practice.

OVERVIEW

S4749 Essential Risk Management

It is estimated that up to 60% of dentists will be involved with a lawsuit during their practice years. Adequate risk management in dental practices is mandatory but is not present in some practices. The principles of risk management are included and discussed in this video.

The following and other topics are included in this video:

- Standards of care in dentistry.
- Who establishes standards of care?
- Potential changes over time with standards of care.
- What areas of dentistry are discussed to determine negligence?
- Importance of recording proper documentation of procedures.
- Frequency of dentists being involved with lawsuits.
- Types of permanent injuries that occur in dentistry.
- Types of temporary injuries that occur in dentistry.
- What two conclusions need to be proven in court to indicate negligence?
- Importance of recording all medications.
- Importance of updating medical histories.
- Vital signs that must be determined and recorded.
- Virtual vs. hard copy informed consent.
- The relationship of the human papillomavirus to dentistry.
- Procedures involved with proper informed consent.
- Who signs the informed consent document?
- Dentists' responsibility for diagnosing oral cancer.
- What risk management procedures should be incorporated into your practice?
- Risk management procedures currently used in your practice.
- How to incorporate proper risk management procedures into your practice.

POST-TEST

S4749 Essential Risk Management

1. Are dental standards of care similar in all geographic areas?
 - a. Yes
 - b. No

2. Who establishes standards of care?
 - a. State regulatory organizations
 - b. Dental schools
 - c. Specialties
 - d. All the above

3. Can standards of care change?
 - a. Yes
 - b. No

4. What areas of dentistry are discussed in a trial on a specific injury?
 - a. The standard of care for the specific issue.
 - b. All areas of dentistry related to the injury.

5. Documentation should be done:
 - a. For all aspects of a procedure accomplished.
 - b. Only for the specific procedures being completed.

6. Should a call to a previous practitioner related to a specific case be documented?
 - a. Yes
 - b. No

7. A fractured mandible is a:
 - a. Temporary injury.
 - b. Permanent injury.

POST-TEST (CONT'D)

S4749 Essential Risk Management

- 8. Two conclusions necessary to indicate negligence are:
 - a. Was the procedure at the level of standard of care?
 - b. Was their injury caused by the procedure?
 - c. All the above.
 - d. None of the above.

- 9. Vital signs should be determined:
 - a. Only at the diagnostic appointment.
 - b. Before each procedure.
 - c. All the above.

- 10. Informed consent:
 - a. Is a legal mandate.
 - b. Should be signed by the patient
 - c. All the above.
 - d. None of the above.
