PRACTICAL CLINICAL COURSES

PROCEDURE FOR RECEIVING
CE CREDIT FOR VIDEO COURSES

1. Complete the enclosed Post-Test.* For each **CE Video Purchased**, one complimentary test is included. Additional tests are \$35/person per test. Fees can be paid by check or with a credit card when submitting tests to Practical Clinical Courses. If more than 10 CE tests are required per video, please contact us at 800-223-6569.
2. Complete the demographic information located at the end of the test.
Type of Credit:
 - a. If the applicant selects "State," PCC will issue a certificate of verification to the applicant. The applicant must then submit this certificate to their state board to obtain credit.
 - b. If the applicant selects "AGD," PCC will submit credit information to the Academy of General Dentistry and confirmation to the applicant that it has been submitted (*the applicant may check their AGD transcript for verification – please allow 30 days*).
 - c. If the applicant selects "Both," PCC will complete a. & b. above.
3. Return the **Post-Test portion** via mail, fax, or email. Our contact information is as follows:

Practical Clinical Courses
3707 N Canyon Road
Suite 3D
Provo, UT 84604
Fax: (801) 226-8637
cetests@pccdental.com

4. Practical Clinical Courses will correct the Post-Test. **Passing scores are 70% or higher.**

***TO OBTAIN CE CREDIT ONLINE:** Login or create an account on www.pccdental.com and select "My CE Tests" from the left-side menu. Click on the video title to take the test online. **RESULTS ARE IMMEDIATE.** Missing the test? Contact us at 800-223-6569 during our business hours of 7:00 a.m. – 4:00 p.m. MST to add it to your account.

POST-TEST

X1946 Conservative Indirect Restorations

1. Why use minimally invasive dentistry?
 - a. Increases longevity of natural dentition
 - b. Preserves enamel
 - c. Is usually less expensive for patients
 - d. All the above

2. Placing an onlay instead of a crown helps preserve the pulp and prevent future root canal therapy.
 - a. True
 - b. False

3. Subgingival crown margins can experience:
 - a. caries from open margins on crowns.
 - b. chronic inflammation.
 - c. receding gingiva.
 - d. all the above.

4. Which is the longest-lasting retention feature?
 - a. Enamel impregnated with resin cement
 - b. Bond to dentin

5. When are onlays a potential alternative?
 - a. When one cusp is broken off
 - b. When a tooth needs restoration after endodontic therapy
 - c. Almost any time a crown is indicated
 - d. All the above

6. Dentists can use the enamel margin preservation approach for:
 - a. direct restorations.
 - b. indirect restorations.
 - c. both a. and b.
 - d. none of the above.

7. Margin elevation is an alternative for deep-crown margins.
 - a. True
 - b. False

8. On the external surface of a tooth, there are _____ organisms.
 - a. 150
 - b. thousands of
 - c. millions of
 - d. billions of

POST-TEST

X1946 Conservative Indirect Restorations

9. When applying two 1-minute applications of GLUMA or MicroPrime, organisms on the tooth surface will:
 - a. be killed on the enamel only.
 - b. be killed on the dentin only.
 - c. be killed to the pulp.
 - d. not be killed completely.

10. Scanning is more accurate than using vinyl or polyether.
 - a. True
 - b. False

11. IPS e.max crowns have three different opacities. Dr. Ruiz suggested using _____ for anterior teeth and _____ for posterior teeth.
 - a. IPS e.max MT, IPS e.max LT
 - b. IPS e.max LT, IPS e.max MT
 - c. IPS e.max MT, IPS e.max HT
 - d. IPS e.max HT, IPS e.max MT

12. Excellent margin blends need cement with _____ translucency.
 - a. light
 - b. medium
 - c. dark
 - d. any type of

13. When preparing teeth for porcelain veneers, a _____ incisal edge thickness is usually sufficient.
 - a. 0.5 mm
 - b. 1.0 mm
 - c. 1.5 mm
 - d. 2.0 mm

14. E.max is one color (one opacity), so variations in thickness of the tooth preparation will not affect the color.
 - a. True
 - b. False

15. Having a system in place for smile design, such as the dento-facial esthetic diagnosis system, allows you and your patients to assess patient expectations of:
 - a. color.
 - b. shape.
 - c. length.
 - d. all the above.

16. Minimally invasive dentistry is more difficult treatment than conventional dentistry.
 - a. True
 - b. False

POST-TEST

X1946 Conservative Indirect Restorations

- 17. Canine guidance is crucial because it decreases occlusal forces.
 - a. True
 - b. False

- 18. Preserving at least 50% of the volume of surface enamel is necessary for adequate veneer retention.
 - a. True
 - b. False

- 19. Some of the benefits for using supra-gingival minimally invasive dentistry include:
 - a. easier impressions, less post-op pain, longer lasting.
 - b. fewer problems if temps fall off, healthier, less chance of RCTs.
 - c. both a. and b.
 - d. none of the above.

- 20. If you place veneers, use a dual-cure cement. If you place onlays, use a light-cure cement.
 - a. True
 - b. False
